

Raven Hydronic Supply Ltd is proud to announce its 2016 fundraising initiative in support of educating children in the developing world.

Raven is again partnering with *Room to Read*, this years project will be in Cambodia. Cambodia is still rebuilding after the Khmer Rouge seized power in 1975, necessities such as electricity and potable water are still scarce in rural areas.

Raven is excited to be funding a year of education for 50 girls. Girls who finish secondary school go on to earn more, have smaller and healthier families, and more likely to educate their own children – ending the cycle of poverty. In rural Cambodia 50% of young girls are labourers instead of students.

Our Goal: To raise \$20,000 by the end of 2016

With your help we can make a difference in the lives of children and provide them with the lifelong gift of education.

Raven Supply has been a proud supporter of Room to Read since 2013. As always Raven will match each donation.
