

KESTAVA™

Condensing Tankless Water Heater

750,000 – 2 Million BTU/HR

Fulton's condensing water heaters deliver domestic hot water in a compact, ultra-efficient design. The KESTAVA™ features high-quality materials and a proven combustion control system for safe, reliable operation.

Reduce Fuel Costs & Emissions

The ultra-high efficiency heat exchanger and fuel-saving burner reduce carbon emissions and NOx emissions by 80% compared to conventional water heaters.

Simplify Your Installation

Fully electronic combustion controls use Flame-by-Wire™ technology. This installer friendly system is simpler to learn and operate, significantly reducing commissioning time and complexity.

FEATURES & BENEFITS

- ▶ 10-Year Heat Exchanger Warranty
- ▶ Duplex Stainless Heat Exchanger
- ▶ Resilient Against Scale and Corrosion
- ▶ Comprehensive 2-Year Parts Warranty
- ▶ Real-Time O₂ Compensation

COMPLEXITY SIMPLIFIED

Fulton's PURE™ Control provides rapid access to operating details and allows for easy configuration. It automatically sequences up to 10 heaters and eliminates the need for a separate, master panel. When a heater is powered off, the plant seamlessly transitions to the next available stage for reliable hot water.

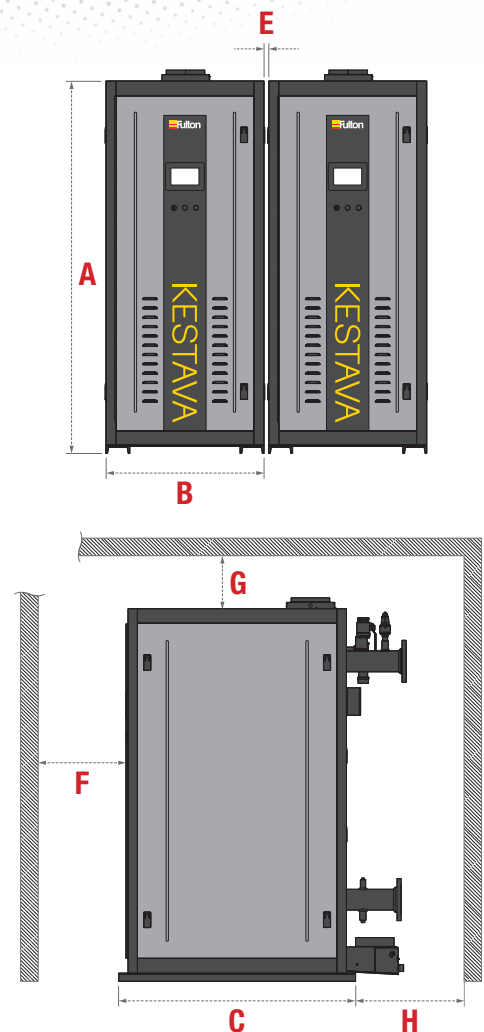

- ▶ No Master Heater Required
- ▶ Motorized Isolation Valve Control
- ▶ Variable Speed Pump Control
- ▶ Load Anticipation
